**JAMIA
AT A
GLANCE**

A HUMBLE APPEAL

Without doubt, not only Deeni Madaris are not only for preservation of Deen and Islam, but also they have an important and distinguished role in the formation of a good society. Jamia Zakariyya is of the same kind, serving and imparting education since last few years in East Champaran, Bihar.

Jamia Zakariyya is working as per the guide lines directed by great Ulama and wise people of the nation. Jamia Zakariyya has done in the last few years eye opening services in the field of education and Dawat and Tabligh. Different Makatib are running in different regions wherein thousands of students are extinguishing their educational thirst. Jamia is also working in different fields as to sponsorship of widows, marriage of poor girls, scholarships for the poor students and different other social and inhabitation activities.

Jamia Zakariyya is heading towards its destination with pomp and show. It stands in financial and moral crying needs in order to precede all religious activities. Well wishers are requested to participate in different activities and try their level best for its strength. Jamia spends Zakat, Sadaqat and donations sparingly. All are requested to take part in the activities of Jamia, and to direct other people's attentions to it. Allah will make it (insha Allah) a cause for salvation in the hereafter.

Brief introduction of JAMIA ZAKARIYYA

Undoubtedly Islamic madrassas are shining like a beacon of light in the face of modern challenges and it is quite clear that these madrassas are the custodians of all Islamic activities and the guarantors of the protection of Islam. Praise be to Allah. The network of religious schools have spread all over India as a result of the sacrifices of the ulema and eminent scholars and all the ulema and preachers of Islam are engaged in the propagation of Islamic sciences.

Jamia Zakariyya Dhaka is also a golden link in the chain that is doing well in the field of religious reform, welfare and education in Dhaka, the bordering area of Indo-Nepal. In a very short span of time, Jamia Zakariyya has gained a privileged position in the eyes of eminent scholars of the country and abroad due to its excellent performance. Jamia Zakariyya Dhaka was established in 2002. The foundation of Jamia Zakariyya came into being in view of the educational and economic backwardness of the region. At present dozens of Makatib are running all over Bihar under Jamia.

Except for the days of the global epidemic, the total number of students studying in the Jamia and its branches has exceeded 1200, while the number of students residing in the Jamia headquarters was 450, which was fully sponsored by the Jamia. Due to this world pandemic, the number of students was kept low for the last two years. For the education and training of the youngsters of the nation who are studying in the Jamia and its branches, more than 26 sincere and experienced teachers are engaged in carrying out their responsibilities diligently.

The scope of activities and services of the company is increasing day by day, due to which the expenses are also increasing dramatically. From the beginning of the covid-19, the university faced severe financial difficulties. Meanwhile, the self-founder of

Jamia, **Al Haaj Hazrat Maulana Mufti Muhammad Ilyas Mazaheri Nawwarallahu Marqadahu (died on May 3, 2020 according to the holy month of Ramadan 10, 1442 AH),**

was pronounced dead after a short illness, due to which financial difficulties have doubled, Repayment of past and present debt is very important.

The nation should also pay special attention to this. It is kindly requested to all the well-wishers, social and national workers and the children of Tawheed who have

religious support to participate in the fulfillment of the educational and constructional needs of the Jamia and also to draw the attention of their friends towards this good deeds. May Allah reward him according to his dignity and may Allah the Lord of Glory, be our supporter and helper.

Different forms of cooperation of JAMIA ZAKARIA

The example of those who spend their wealth in the way of Allah is like the sowing of one seed and seven hairs grow out of it and there are a hundred grains in each hair.

Here an example has been used to explain to man how wealth increases when you spend in the way of Allah, even a particle that is given in the way of Allah becomes like a mountain of Uhud.

In today's tempting times, when the evil forces are trying to destroy the madrassas, if the madrassas are not supported at such a time, they will close, our children will be deprived of education. Where will the people in charge of the madrassas be able to raise enough money to spend the whole year? The path of religious services will be narrow, Teachers, Imams, Huffaz, Qurraa, Mohaddiseen, Mufasssireen will all become rare, who will guide us? Who will lead?

In the light of these circumstances, you are requested to prepare the madrassas with your own and liver's blood, to co-operate with your life and property in every possible way. Not only that, but encourage others to do the same, get others to cooperate.
